

Marcus Udén

Product Manager · Product Operations · AI-native execution

Operational depth. Product thinking. AI-native execution.

Stockholm, Sweden · marcus.uden.dev@gmail.com · marcus.uden.dev · github.com/marcus-uden-dev

PROFILE

Product and operations practitioner who turns messy operating problems into clear, buildable work. Brings regulated-process judgment from financial services, customer research from Lendify, entrepreneurial product experience, and hands-on AI workflow prototyping. Best suited to Product Manager and Product Operations roles that value discovery, workflow design, technical collaboration, and practical execution.

SELECTED PROOF OF WORK

JOB-AGENT · WORK IN PROGRESS

Designed and built a decision workflow that connects job discovery, company research, application tailoring, and interview preparation. The public proof uses a synthetic company and makes provenance, confidence, and limitations visible. It does not claim market outcomes.

marcus.uden.dev/proof/job-agent/

CORE CAPABILITIES

Product discovery and requirements · Product operations and workflow design · AI-assisted prototyping and evaluation · Customer journeys and service flows · Business analysis and regulated-process judgment · Cross-functional communication

RECENT AND RELEVANT EXPERIENCE

Consulting assignment — Customer experience and business model

Dec 2025 – Jan 2026

ChefNextDoor

- Analysed the end-to-end customer journey, including conversion, recurring use, and service-flow friction.
- Produced prioritised product, flow, business-model, and scaling recommendations.

Mail carrier — Logistics and customer service

May 2023 – Present

PostNord · Current operating context

- Own daily customer contact, delivery quality, and precision in a high-tempo service environment.
- Coordinate delivery flows and translate recurring frontline friction into improvement opportunities.
- Initiated an internal digitalisation project; public details remain generalised.

Digital business developer — Digital transformation

Jun 2022 – Jan 2023

Ldek AB

- Developed SEO strategy and improved digital customer flows.
- Ran marketing activities to increase customer engagement.

Co-founder — Business development and product launch

Jan 2020 – Jan 2022

Murphy Bed

- Built a B2C business and led contract, requirements, logistics, and digital sales-channel work.
- Tested the business model and distribution design before scaling.

Founder — Innovation and product development

Jan 2018 – Jan 2021

IoT product

- Developed a sensor-and-app subscription concept for the fitness and health sector.
- Owned user interviews, requirements, prototyping, onboarding, time to value, and product adoption work.

Thesis project — Innovation and retention strategy

Mar 2019 – Jul 2019

Lendify

- Conducted semi-structured customer interviews, target-group analysis, and journey mapping.
- Developed a behaviour-informed loyalty concept and retention strategy.

Earlier experience

FINANCIAL SERVICES, ENTREPRENEURSHIP, AND DELIVERY

Project Manager — Digitalisation and business development Jan 2018 – Sep 2018

Tierps Tryckeri

- Led a digitalisation project and developed a standalone loyalty-system concept.

Financial Advisor — Financing and risk management Jun 2016 – Dec 2017

SEB Construction Loans

- Processed construction finance with risk analysis and contract review.
- Worked across customer, analysis, and process systems; held a SwedSec licence.

CEO and Co-founder — Business development and quality Sep 2014 – Jun 2016

Ramshöjden AB

- Built quality-management processes and operational routines for a planned residential-care business.
- Managed legal, design, planning, procurement, and construction work.

Financial Advisor — Risk analysis and customer relationships Oct 2007 – Sep 2014

SEB Mortgages and Construction Loans

- Managed mortgage and construction-finance cases, including risk and contract review.
- Improved customer-handling processes and parts of the risk-management system; held a SwedSec licence.

Account Manager — Customer and market analysis Jan 2007 – Oct 2007

Comboloan

- Managed customer relationships and supported marketing, competitor, market, and customer analysis.

EDUCATION
